

Jane Doe  
Senior Backend Engineer  
jane.doe@example.com

## EXPERIENCE

Senior Backend Engineer, Acme Corp, 2021–present  
Built and maintained TypeScript microservices on Node.js and Postgres.  
Designed REST APIs serving 500k requests per day.  
Migrated legacy Java services to TypeScript; reduced p99 latency by 40 percent.  
Mentored four mid-level engineers through structured pairing.

Backend Engineer, Globex, 2018–2021  
Built event-driven systems with Kafka, Redis, and Spring Boot.  
Owned CI/CD pipelines (GitHub Actions, Docker).  
Wrote integration tests in JUnit; raised coverage from 30 to 70 percent.

## SKILLS

TypeScript, Node.js, Java, Spring Boot, Postgres, Redis, Kafka, REST, GraphQL,  
Docker, Kubernetes, GitHub Actions, JUnit.

## EDUCATION

BSc Computer Science, State University, 2018.
